# Frequently Asked Questions

---

## □ Why should I invest in private credit?

The key advantages include attractive risk-adjusted returns, portfolio diversification, and access to a unique asset class with low correlation to traditional equity and fixed-income investments.

## □ What differentiates Sagard Private Credit Fund from its peers?

The Fund taps into a robust funnel of senior secured, first-lien loan opportunities that the Sagard team rigorously diligences across its institutional product shelf. Like other Sagard Credit products, the Fund focuses on direct lending to North American middle market companies, capitalizing on what we view as a less crowded lending space, with opportunities for enhanced pricing and improved downside protection.

## □ What measures are in place to mitigate default risk?

The Fund employs a rigorous due diligence process to assess the creditworthiness of potential borrowers. We carefully evaluate factors such as financial performance, industry dynamics, management quality, and collateral coverage. Furthermore, the Fund structures loans with tight covenants, collateral, and exit strategies to protect investors' interests in case of adverse events.

## □ How are returns generated for investors in the Fund?

Returns are generated primarily through interest income, origination fees, and potential capital appreciation from the underlying portfolio of loans and investments. The investment team employs a disciplined and selective approach to sourcing, underwriting, and managing investments to maximize risk-adjusted returns for investors.

## □ When can I subscribe to the Fund?

The Fund accepts subscriptions monthly on the 1st of the month. A purchase order must be placed and executed subscription documents must be submitted to iCapital no later than 12 business days prior to the subscription date. Subscriptions must be funded 8 business days prior to the targeted subscription date.

## □ What if I want to sell my units of the Fund?

The Fund offers quarterly liquidity with 75 calendar days' notice; payment will occur approximately 45 days after quarter-end. Redemptions are limited to 5% of the aggregate NAV of the Master Fund; any redemption requests above that will be paid on a pro rata basis. The Fund may charge an early redemption fee of 2% of NAV on any units redeemed within the first year of subscription.

## □ When will I receive my first distribution and how often will I receive future distributions?

The Fund expects to pay distributions on a monthly basis, with the first distribution payable approximately three months after the first closing. For more information on the Fund's distribution policy, please refer to the Fund's Offering Memorandum.

# Performance Reporting

<sup>1</sup> The projected returns, forecasts and estimates (including, without limitation, any projected rates of return) included herein are necessarily speculative in nature, involve elements of subjective judgment and analysis and are based upon various assumptions made by Sagard in relation to the investment strategy being pursued by the fund referenced herein. It can be expected that some or all of such assumptions may prove to be incorrect or may vary significantly from actual results. Any change or inaccuracy in such assumptions will impact actual results. Accordingly, actual results may differ materially from those projected returns herein. Moreover, while Sagard (the "Firm") generally focuses on investments that are anticipated to provide such projected returns, it is not the case that every investment made will yield such returns. Projected returns are hypothetical and do not reflect the actual returns of any Firm client or investor. No assurance, representation or warranty is made by any person that the projected returns will be achieved and undue reliance should not be put on them. Additional information about the key assumptions used in determining the projected returns and the factors that could cause actual results to differ materially from the projected returns are available upon request.

<sup>2</sup> Assets Under Management ("AUM") As of September 30, 2024 is the sum of:

- i. net asset value of private equity, venture capital, private credit and healthcare funds, including uncalled capital commitments of those funds and unused leverage,
- ii. gross asset value of the underlying real estate of Sagard Real Estate funds and separate accounts,
- iii. fair value of assets held in co-investment vehicles managed by Sagard and uncalled capital commitments of those co-investment vehicles,
- iv. AUM of other managers controlled by Sagard, including fund of funds AUM of the previous quarter, adjusted for subsequent closes during the current reporting quarter (expected AUM pro-forma for the acquisition of PEM), and
- v. fair value of all other assets managed by Sagard that are not otherwise included in the clauses above.

Our definition of AUM is not based on any definition contained in our fund management agreements. Furthermore, our calculation may differ from the manner in which the SEC defines "Regulatory Assets Under Management" on Form ADV and from the AUM definition used by other asset managers.

<sup>3</sup> Includes employees employed by Sagard Holdings Inc. and Sagard SAS, as well as affiliates of Sagard Holdings Management Inc., Grayhawk Investment Strategies Inc. and EverWest Real Estate Investors, LLC.

<sup>4</sup> Gross IRR is a measure of the discounted cash flows (inflows and outflows) related to an investment. Gross Portfolio IRR is based on the portfolio cash flows, including the investment amount at inception, income earned, realized proceeds and carrying value of the portfolio as of September 30, 2024. Gross performance information does not reflect inception-to-date management fees, any fund expenses borne indirectly by investors in a fund, carried interest charged by the Firm or its affiliates or, to the extent applicable, expected credit losses, which will reduce returns and in the aggregate are expected to be substantial.

<sup>5</sup> Net Fund ITD IRR represents the annualized IRR on the total Limited Partners' capital contributions, distributions, and the Fund's net asset value after management fees, fund expenses, and carried interest as of September 30, 2024. Net Fund ITD IRR incorporates the performance results of certain investors who pay no or reduced management fees and/or no or reduced carried interest, and accordingly some investors may earn lower returns than those set out herein.

## **Past Performance Disclaimer**

Past performance contained herein is not necessarily indicative of future results and there can be no assurance that any fund referenced herein will achieve comparable results or that such fund will be able to implement its investment strategy or achieve its investment objective.

## **Target Returns Disclaimer**

The target returns, forecasts and estimates (including, without limitation, any targeted rates of return) included herein are necessarily speculative in nature, involve elements of subjective judgment and analysis and are based upon various assumptions made by the Firm in relation to the investment strategy being pursued by the fund referenced herein. It can be expected that some or all some or all of such assumptions may prove to be incorrect or may vary significantly from actual results. Any change or inaccuracy in such assumptions will impact actual results. Accordingly actual results may differ materially from those targeted returns herein. Moreover, while the Firm generally focuses on investments that are anticipated to provide such target returns, it is not the case that every investment made will yield such returns. Target returns are hypothetical and do not reflect the actual returns of any Firm client or investor. No assurance, representation or warranty is made by any person that the target returns will be achieved and undue reliance should not be put on them.

## **Recycled Capital Disclaimer**

The returns presented herein include all return generated by reinvested capital and profit. Without such reinvested capital, the returns presented herein could be materially lower.

## **Credit Facility Disclaimer**

Certain funds borrow under a credit facility (sometimes referred to as a "subscription line") to make investments and pay expenses and for other purposes to the extent permitted by the fund's partnership agreement. Such fund-level borrowing to fund investments impacts net IRR calculations because net IRR is calculated based on investor cash outlays to, and returns from, the funds and as such, returns depend on the amount and timing of investor capital contributions. To the extent, a fund uses borrowed funds in advance or in lieu of calling capital, investors make correspondingly later or smaller capital contributions. Accordingly, this fund-level borrowing results in higher net IRR than if capital had been called to fund the investments, even after taking into account the associated interest expense of the borrowing.
